Game Day Processes

MSC recreation

Updated 9/9/20 and subject to change

Introduction to Game Day Processes:

Governor Whitmer's Executive Order 176 allows MSYSA, and other contact sports, to move forward with additional soccer activities. However, MSYSA does not anticipate authorizing games to commence until September 19, 2020, at the earliest.

When games resume, things will look much different. Unfortunately, this is the new normal. These new Game Day processes are meant to keep you and everyone safe.

Individual Responsibility

A. Coaches (and Managers)

- *Wear face covering while at game facility (before, during, and after games while around others)*
- Remind players and the spectators about the face covering requirement
- Maintain minimum of 6 feet of physical distance from everyone whenever possible (exception – see below for attending to an injured player)
- Conduct verbal health check of each player before each game – send anyone home who says they are not feeling well
- Monitor/ensure that players on the sidelines maintain 6 feet of physical distance from each other
- Do not provide shared food, water, and equipment (including team benches, shared goalie gloves, shared goalie jersey, etc.)
- Assist players with coming to the fields fully prepared. TIP: Arrange team colors with opponents in advance of the game to minimize the need to change clothes.
- Keep pre-game, halftime, and post-game team meetings brief, and maintain 6 feet of social distance throughout each meeting
- Do not allow group huddles, hugs, cheers, high fives, chest bumps, wrestling, etc.
- Limit, or prohibit, partner stretching during warm-ups
- Bring hand sanitizer to each game
- Bring multiple sanitized balls to each game (for use during game)
- As required for competition, bring photocopies of any/all pass cards, risk management cards, and game reports to be retained by referees

Michigan State Youth Soccer Association

B. Players

- *Wear face covering while at game facility (before, during, and after games while around others)*
- Stay home if not feeling well or displaying symptoms of COVID
- Arrive at field fully dressed (uniforms, shoes, shinguards, etc.)
- Maintain minimum of 6 feet of physical distance from everyone whenever possible
- Bring sufficient hand sanitizer to game for repeated use
- Bring a sanitized ball to each game for warm-ups
- Do not share food, water, and equipment (including shared goalie gloves)
- No group huddles, cheers, high fives, chest bumps, etc.

C. Referees

- *Wear face covering at game facility before and after games.*
- Use only your own equipment – do not share flags, whistles, uniforms, pens, etc. If flags are not owned by all, referees may share flags, but they must be sanitized before and after use. TIP: Bring all equipment and all uniform colors to each game.
- Note: The role of referee is not to enforce these game day safety protocols. However, referees should note and report instances of non-compliance to the league administrator.

D. Spectators

- *Wear face coverings while at game facility*
- Take temperature prior to leaving for the game. Stay home if temperature is 100.4 degrees or higher. This includes players.
- Sit only in the area(s) designated for spectators. Do not encroach on space designated for referees or teams.
- Maintain minimum of 6 feet of physical distance from everyone not residing within same residence
- Do not go to the opponent's side of the field
- Some programs/leagues/events may limit or prohibit spectators – be understanding and adhere to all program/league/event policies
- Some facilities may eliminate restrooms – be prepared for that possibility

Protocols

A. Injured Players

Michigan State Youth Soccer Association

- Assessment/treatment of an injured player should not be delayed if game day protocols cannot be followed (i.e. do not delay attending to injured athlete because social distance cannot be maintained)
- Upon the referee signal, one coach (wearing a facial covering) enters the field to attend to an injured player
- Coach maintains 6 feet of physical distance as possible if/until it is determined if player needs assistance getting off the field
- If an injured player needs assistance getting off the field and a second person is needed, the coach first asks the player's parent(s). Player's parents must be wearing a face covering. If a player's parent is not on-site, the coach signals to another team member who must also wear a face covering.
- As soon as possible upon exiting the field, the injured player, coach, and additional person providing assistance must clean their hands with sanitizer.

B. Spectators at Games

- For State Cup, Michigan State Premier Soccer Program, and Director's Academy, spectators shall be limited to 2 persons per player.
- *Spectators must wear face coverings while at game facility*
- Spectators must sit only in area designated for them
- Spectators must maintain minimum of 6 feet of physical distance from everyone not residing within their same residence

C. Pre-Game Check-In & Post-Game Processes (MSYSA Recommendations)

- Please place the game sheet/ weekly attendance sheet in a Ziploc bag and hand to the referee.
- Prior to team check-in, all participants clean hands with their personal sanitizer
- At team check-in, all participants (players, team officials, referees) must wear face coverings.
- At team check-in, players must have 6 feet of physical distance between them.
- Referees will not conduct a coin toss or captain's meeting. 'Home team' is considered the 'winner' of the non-existent coin toss and therefore select their first-half option.
- No pre-game walkout of any kind (example: World Cup walkout)
- After each game, referees will submit game sheets/weekly attendance with results (if applicable) and applicable notes as usual.
- For ALL AGES that play 4v4, please place your weekly attendance sheet in the drop box at the 901 building by the door.

D. The Game

- Each Coach should sanitize a ball to be used for the game and resanitize it at the half/quarters.

Michigan State Youth Soccer Association

- Spectators should not handle a ball that leaves the field of play.

E. The Uniform

- Players must wear a facial covering during games and may wear gloves.
- Referees may wear a facial covering and/or gloves during games.

F. Substitutions

- Upon entering and exiting the field as a substitute, players clean hands with sanitizer.
- A player exiting a game via substitution goes directly to their team bench. No high-fives or exchanging of pinnies with player entering the game.
- The player entering the field via substitution puts pinnie in their own bag before waiting to substitute onto the field.
- The player exiting the field via substitution may put on their own pinnie from their own bag. The player must also clean hands with sanitizer and put on a facial covering.

G. Deliberate Coughing and Spitting

- Deliberate coughing at or spitting at an opponent, referee, or any other participant will result in an immediate red card. Suspension length is determined by competition.
- Spectators are held to the same standard and referees have the same authority to enforce as they do with all other spectator-related issues.

H. Team Benches

- MSYSA recommends that facilities and teams NOT provide nor use team benches.
- Players and coaches may bring their own chair, situated 6ft apart, to sit in during the game.

I. Facilities & Field Set-Up

- Teams will be placed on opposite sides of the field, on the half of the field of which the assistant referee is positioned (see below diagram).
- A team's accompanying spectators will sit on the same side of the field as the team but on the other half (see below diagram).
- MSYSA strongly recommends that team bench/technical areas and spectator areas are marked with paint.
- Spectators to be minimum of 10 feet back from the touchline. Facilities that cannot accommodate that requirement are not to be used.
- Team technical areas will be between the bottom of the center circle and the top of the penalty area (see below diagram).
